SPRING 2019

Quincey Eyewear

Expanding Horizons

LOOKING GOOD - SEEING BETTER

THE BASIC PRESCRIPTION RANGE: Powers +5.00 to -5.00 with opposite cyls to 6.00. Quoted lens range is approximate and availability depends upon frame size and centration. Other lens powers may be possible. Minimum fitting heights for Olympia and Activity progressives 16mm, 18mm and 20mm.

STANDARD WRAPPED SPECIFICATION: Frame and **ARENA^{HD} OLYMPIA** poly or 1.6 hard coated lenses with microfibre pouch for storage and cleaning. Other lens options as listed and any not shown may be available on quotation. (Includes new Rx switchables)

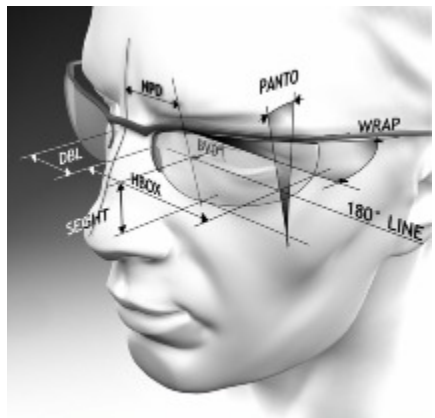

LIFESTYLE 6 BASE SPECIFICATION: Frame and **ARENA SUNSCAPE** poly or 1.6 hard coated lenses with microfibre pouch for storage and cleaning. Other lens options as listed and any not shown may be available on quotation.

FRAMES WITH Rx INSERT: Frame and Insert glazed with CR39 or Poly clear lenses. Includes microfibre pouch for storage and cleaning. Additional interchangeable plano lenses included where applicable.

ARENA OLYMPIA POLARSPORT & ARENA ACTIVITY PHOTOSPORT LENSES
Custom designed to compliment the Sunwise Polarfusion and Chromafusion plano lenses so spectacle wearers can enjoy the same optical benefits and style.

FULL PERSONALISATION: Requires Frame box measurements A, B & DBL , Back Vertex Distance, Pantoscopic Tilt, Frame Wrap Angle & Height.

ARENA^{HD} OLYMPIA lenses provide an exceptionally wide field of clear vision through implementation of digital ray path technology . State of the art optimisation at each point on the lens ensures sharp vision in every area of gaze. Digital Ray-Path technology minimizes the loss of optical quality in wrapped frames through oblique aberration optimisation and prismatic effect compensation.
